## MUTINIOUS INDIANS SURRENDER TO BRITISH

### Expect Answer In GM Strike Tonight

(By Associated Press)  
Pressing for an end to the 94-day-old General Motors strike, Special Labor Mediator James F. Dewey said today that he expected to get a definite "yes" or "no" from management and union by midnight tonight on all issues in the dispute.

Earlier Dewey told newsmen "I expect the company and the union to reach an agreement on all issues, including wages, today."

When today's session of General Motors and CIO United Auto

### SAY FABRICATORS CAN MEET WAGES

(By Associated Press)  
PITTSBURGH, Feb. 22.—The CIO-Steelworkers reiterated today that steel fabricating plants can pay an 18½ cent an hour wage increase—the same as accepted by basic steel—and still stay in business.

Philip Murray, president of the CIO and the Steelworkers, asserted yesterday the union's 39-man executive board "unanimously adopted the policy of applying to the fabricators" the same pay increase granted by basic steel.

Murray said the fabricators could sign contracts containing the new pay raise without first applying to the national wage stabilization board and could then ask the OPA for "price corrections."

Approximately 350,000 persons are employed in more than 800 fabricating plants throughout the nation. At least 254,000 of these steelworkers remained on strike today.

Many fabricators claimed they were losing money before the start of the nationwide steel strike Jan. 21 and insisted the OPA must raise prices of finished steel products before fabricators can afford to grant any wage boost.

### Columbia Street PTA Dance Is Successful

The Columbia Street school Parent-Teacher association held a benefit dance last evening at the Cessidy hall, S. Broadway, attended by nearly 200 persons.

Music for round and square dancing was furnished by Tyrus Swartz's orchestra. Mrs. Mary Conley gave several vocal selections and a group from the Bettie Lee dancing class presented a surprise program. The pupils participating included Dana Rice, Wanda Howard, Bobby Hill, Jean Eckhart, Helen Dora Copacica, Marjorie Fineran and Nancy Zimmerman.

The hall was decorated in red, white and blue. Proceeds from the dance will be used to benefit the school.

The PTA group will hold a business meeting at 8 p. m. Monday at the school.

### Transportation Normal Again In Lancaster, Pa.

LANCASTER, Pa., Feb. 22.—Bus and trolley service to Lancaster county's 215,000 residents was back to normal today following end of a 16-day transit strike.

The 220 striking AFL employees of the Conestoga Transportation Co. voted yesterday to accept a 12-cent-an-hour wage increase. Spokesmen for Local 1241, Amalgamated Association of Street, Electric Railway and Motor Coach Employees (AFL) had sought 20 cents.

### New Cardinals Given Rings By Pope at Consistory Rites

(By Associated Press)  
VATICAN CITY, Feb. 22.—Twenty-seven new cardinals created in a five-day cycle of unparalleled religious pageantry today joined with their colleagues in the sacred college at a final ceremony at which they received the ring symbol of their rank—their rings.

Henceforward, they will be on an equal footing with the old cardinals in transacting all the business of the sacred college.

This morning's consistory, like the first one held Monday at which 32 new cardinals from 19 nations and all six continents of the world were created, was closed to all save Pope Pius XII and the princes of the church.

It was marked by the ritual of "the closing of the mouth" and "the opening of the mouth," symbolic of the cardinal's duty to counsel the pontiff and keep the secrets of his office.

Members of the sacred college, attired in purple ceremonial robes and scarlet hats, arrived early for the assembly.

### POULTRYMEN PLAN TUESDAY SESSION

Speakers, Dinner Scheduled For All Day Affair Here

Poultrymen from Columbiana and Mahoning counties will gather for an all day meeting in the Methodist church basement on Tuesday, beginning at 10 a. m.

Timely topics of interest to poultrymen will be discussed by various speakers, including Guy W. Miller, farm management specialist, Ohio State University; C. M. Ferguson, poultry specialist, Ohio State University; C. F. Moser, Northeast Ohio Poultry association, Columbiana; E. R. Amiet, Ohio Poultry Improvement association, Columbus. In the evening hatcherymen, feed and supply dealers and a limited number of poultrymen will enjoy a banquet in the church basement.

Following is the program:

10 a. m.—Discussion, "Problems of Poultrymen in 1946." Led by assistant agent for Columbiana county, Chester Roof; "Poultry and Egg Outlook and the Place for Poultry Production on the Farms of Northeast Ohio," Guy Miller, Ohio State University; "Need for a Better Market Outlet for Poultry and Eggs," C. ### DEMANDS U. S. ADOPT ATOMIC ENERGY PLAN

Iowa Republican Asks For  
Action On Definite  
Program

(By Associated Press)  
WASHINGTON, Feb. 22.—Congress heard a new demand today that it do something quickly about framing the nation's future program for atomic energy.

Senator Hickenlooper (R-Iowa) said it is "imperative" atomic legislation be enacted "without delay."

Both the senate and house have had measures pending for several months to provide for the future study, development and harnessing of atomic energy.

Hickenlooper did not refer to Moscow's acknowledgment that Soviet representatives had secured "insignificant" secret atomic data in Canada.

### Follows Byrnes Statement

His statement came after Secretary of State Byrnes assured the senate atomic energy committee yesterday the State department was not aware of any American officials implicated in the Canadian investigations.

Hickenlooper is a member of the atomic energy committee, studying several bills to set up a control commission.

The senate atomic committee apparently finished up with its hearings yesterday, after questioning Secretary Byrnes and two top experts qualified to discuss espionage problems behind closed doors.

The other witnesses were Maj. Gen. Leslie Groves, head of the A-bomb project, and James McInerney, chief of the espionage section of the Justice department's criminal division.

MOSCOW, Feb. 22.—Russian-Canadian relations deteriorated further today when the official newspaper Izvestia charged in an editorial that Prime Minister W. L. MacKenzie King and British Foreign Secretary Ernest Bevin were trying "to undermine the growing international authority of the Soviet Union."

Only yesterday, the Communist party newspaper Pravda criticized King for his statement that Canadian secrets had been ferreted out by agents of a foreign mission. The Soviet union announced that the Soviet military attaché had obtained some information in Canada, but that it was unimportant.

### TWO HOMES, STORE LOOTED IN COUNTY

The Merle Stoffer home, located on the Depot road, one mile north of Guilford lake, was ransacked by burglars last night.

Sheriff George Hayes investigated after the family returned at 11:30 to find the home literally turned upside down. An electric sewing machine, women's and children's clothing and other miscellaneous items were taken.

A home nearby, unoccupied in the winter, owned by Luther Zearly of Wellsville, also was ransacked, the sheriff said.

Another breaking and entering was reported to the sheriff this morning. A grocery, owned by John Latta of Acres on Route 70, near Lisbon, was entered and some merchandise taken.

### 2 Women Injured At Columbiana Crossing

COLUMBIANA, Feb. 22.—Mrs. Walter Karriek of W. Salem at 12 in the Cleveland Clinic hospital for observation of a possible skull fracture, and Mrs. Austin Bowman of E. Salem at 12 at home with a knee injury, as a result of the automobile in which they were riding crashing into a Youngstown and Southern interurban car Wednesday morning at the Eureka crossing, several miles north of town.

Both the automobile and the interurban were headed toward Columbiana. Mrs. Bauman, driver of the automobile, did not bar the approach of the interurban and the motorist's view was obscured by high bushes.

Mrs. Karriek was in the front seat of the automobile with Mrs. Bowman. Mr. Karriek, age 78, in the rear seat, was uninjured.

### Churchill to Accompany Truman Into Ohio

COLUMBUS, Feb. 22.—Winston Churchill will accompany President Truman on the President's trip to Ohio for an address next month but the former British prime minister was not expected to stop over in the Buckeye state.

A White House announcement last night said President Truman and Churchill would enroute at Jefferson City, Mo., March 6 for their trip east, the President stopping off in Columbus and the former British war leader continuing on to Washington. Churchill currently is vacationing in America.

President Truman is scheduled to make a 20-minute address on "The Plan of Religion in An American Democracy" at a special meeting of the Federal Council of Churches of Christ. Churchill will speak at Westminster college, Fulton, Mo., March 5.

## Tension Acute In Bombay As Troops Arrive

(By MILTON KELLY)  
BOMBAY, Feb. 22.—British shore batteries forced the surrender of mutinous Indian sailors aboard the 1,000-ton sloop HMS Hindustan in Karachi harbor today while in Bombay British Tommies opened fire with machineguns on mobs supporting the striking seamen.

A. E. Caffin, local deputy police commissioner, declared Bombay to be in a state of "absolute rebellion."

War Secretary Philip Mason denied that conditions had grown worse in either Bombay or Karachi, and said the number of mutinous Indian sailors was "rather less than 12,000."

The British announced that an advanced headquarters of the southern Indian command had been established in Bombay, with Lt. Gen. R. M. M. Lockhart in "supreme command of all Royal Indian navy, army and air forces in the Bombay area."

(In London, Prime Minister Attlee told commons "the mutineers have been told that only unconditional surrender will be accepted." He said that "order must be restored in India.")

LONDON, Feb. 22.—The All-India radio reported today that latest casualty figures in Bombay's disorders were 30 killed and 500 wounded, more than 100 seriously.

Two small British naval vessels steamed into Bombay harbor and a squadron of planes flew high overhead.

Smash 10 Small Warships  
Mutinous Indians retained control of 10 small warships anchored in the harbor. At dawn today they were flying the "cease fire" flag.

British reinforcements, including heavy artillery were rushed to Bombay as the rioters surged through the streets in the second day of large-scale disorders. At 9 p. m. curfew was imposed. Reuters said police had opened fire 20 times by 2 p. m., and that more than 40 persons had been taken to hospitals.

At Karachi the Hindustan surrendered after she had been under fire for 25 minutes. A Reuters report put the casualties at 4 killed, including two British soldiers, and 25 injured.

A British communique said shore batteries fired on the sloop after the mutineers had been warned to surrender.

Tram and bus service in Calcutta was disrupted by sympathy demonstrations.

Reuters said another British communique described the situation at Castle barracks in Bombay, where barricaded Indian seamen shot it out yesterday with troops, as quiet during the last 12 hours.

### Victory Gardeners Urged To Help In World Food Plight

(By Associated Press)  
WASHINGTON, Feb. 22.—The nation's victory gardeners were called on today to duplicate their yeoman wartime service and help relieve the postwar global food shortages.

The appeal came from President Truman who said urgent needs abroad "for food from this country emphasize the importance of continued effort to add to our total food supply."

The food outlook also was stressed by Secretary of Agriculture Anderson in a statement yesterday. He summoned the nation's farmers to increase their 1946 foodstuff plantings by more than 3,200,000 acres.

In Congress two Republican senators—Taft of Ohio and Hickenlooper of Iowa—suggested a program should be considered now for "tapering off" food subsidies, costing the government \$1,500,000,000 annually.

Both said they are opposed to peacetime subsidies but are apprehensive that it would be an economic shock to the country if subsidies were cut off overnight.

Elimination of subsidies would mean higher price signs in the grocery stores. The subsidy on butter, for instance, is about 15 cents a pound; that on meat about six cents a pound.

### PETRILLO DEALT BLOW BY SOLONS

(By Associated Press)  
WASHINGTON, Feb. 22.—A congressional decision on how far to go in trying to curb James C. Petrillo's powers over radio broadcasting rested largely today with a senate-house conference committee.

The house last night passed, 222 to 43, a bill aimed directly at authority wielded by the fiery president of the American Federation of Musicians.

The senate approved a much milder measure on the same subject a year ago. Accordingly, the task of drafting legislation acceptable to both chambers is set to go to a joint committee. Later both house and senate will vote on the committee's version.

Rep. Lea (D-Calif.), author of the house-passed bill, predicted the senators would go along with most provisions of his measure.

It would outlaw the use of force, threats "or other means" to compel radio stations to pay tribute to unions for using phonograph records.

Violators would be subject to a year's imprisonment or a \$1,000 fine, or both.

### Renamed Superintendent Of Alliance City Hospital

ALLIANCE, Feb. 22.—John T. Cheeks has resumed his duties as superintendent of the Alliance City hospital. Safety-Service Director Raymond W. Butler announced yesterday.

Cheeks, who left the position several years ago to enter the army, returned Wednesday following his discharge from the service at Fort Lewis, Wash.

During his leave of absence, the position had been temporarily filled by the late R. H. Carr.

## STATE NEGOTIATES FOR NEW HOSPITALS

Welfare Department Head Reports New Budget Will Be Needed

COLUMBUS, Feb. 22.—The state welfare department may run out of money six months ahead of the year-end if it gets all the new mental hospitals and doctors that might come its way in 1946.

Ernest Reams, department director, disclosed today that he was preparing figures to present to Gov. Frank J. Lausche on the probable cost of operating the Hoover hospital, the desired portions of the Scioto ordnance works at Marion, and Fletcher general hospital near Cambridge for the last half of the year.

The state is negotiating with Cleveland for Hoover pavilion and with the Federal Land bank at Louisville, Ky., for the Scioto plant, and is awaiting final acceptance or rejection of Fletcher by the Veterans Administration before placing bid on it. The actual cost of the latter two has never been estimated.

Reams emphasized that the department had operated within its \$70,000,000 budget in all departments, including the \$14,000,000 institutional operating budgets, which in turn include \$10,000,000 for payrolls and maintenance of the mental hospitals.

However, he said, the department was able to make moves such as purchase of the Youngstown receiving hospital for \$80,000 and of the Tiffin state hospital for epileptics from the Junior Order of United American Mechanics for \$750,000, both unanticipated this year.

To staff these, plus Scioto, Fletcher, and Hoover, the state might have to hire 54 doctors alone, Reams said.

Scioto would need a medical superintendent and seven doctors, and Fletcher a superintendent and nine, he estimated.

Reams estimated that funds available to the department probably would last until September but that different budgets for the entire last half of 1946 might be necessary.

## GUARDING YOUR HEALTH

Various Allergic Disorders

By HERMAN N. BUNDESEN, M.D.

ALLERGIC disorders seem to be on the increase. In any event, they are responsible for a great deal of discomfort and misery to many people. They include such conditions as urticaria or hives, hay fever and asthma. Another allergic condition is known as vasomotor rhinitis, in which there is almost continuous discharge from the nose. Vasomotor rhinitis is also known as "year round hay fever."

From the studies which have been made on allergy or oversensitivity, it would seem that the symptoms are probably due to the presence in the body of a substance known as histamine. Histamine is formed in the body as a result of the patient's reactions to the substances to which he is sensitive.

### Study Made

At the Mayo Clinic a study has been made by Dr. Thomas W. McElin and Dr. Bayard T. Horton of a new substance with a long name, beta-dimethylaminoethyl benzylhydriol ether hydrochloride. The substance is a white crystalline powder that dissolves easily in water and alcohol. It would appear that this substance has the effect of relieving the spasm of the bronchi or small tubes in the lungs which is caused by histamine. It also overcomes the depressant action of histamine on the blood vessels and it relieves the spasm of the muscles.

Dr. Paul A. O'Leary and Dr. Eugene M. Farber of the Mayo Clinic used this substance in treating 50 patients with urticaria or hives.

Hives may be either acute or chronic. That is, they may be of short or long duration. Fifteen patients who had acute urticaria of average duration of sixteen days were given the drug. Nine obtained prompt relief which consisted in a disappearance of the itching in from 20 to 60 minutes after the first dose, and disappearance of the hives in from two to six hours.

### Other Reactions

Five of the patients improved and one did not seem to be benefited by the dose which was given. Thirty-five patients who had chronic urticaria were also treated. Their average age was 42 years and the average duration of the condition was about four years. Twenty-five of the 35 patients were relieved of the hives completely while seven additional patients were definitely improved and three were not benefited. The rash promptly recurred when the use of the drug was stopped.

It would appear that certain reactions occur when the drug is employed. These consist of drowsiness, dizziness, weakness, dilated pupils and dryness of the mouth. Only three of the patients were forced to stop the use of the drug because of severe dizziness. However, this drug should be used only under the doctor's watchful care.

It would appear, then, that this new preparation has great value in the treatment of a number of disorders due to allergy. Further studies with it, of course, will be carried out to determine its exact benefits in hay fever, asthma and allergic rhinitis.

## E. Palestine Girl Married To Salem Man

Miss Norma Marie McDonald of East Palestine and Charles William Walpert of R. D. 5, Salem, were principals in a beautifully appointed wedding at 9:30 a. m. Thursday in Our Lady of Lourdes Catholic church in East Palestine.

The nuptial high mass was said by Rev. Fr. Joseph Heide, the pastor, who used the single ring rite.

The offertory, "On This Day O Beautiful Mother" was sung by Misses Anna Gillis and Elizabeth Chick accompanied by Miss Marie Berry, organist. Miss Gillis also sang, "Ave Maria."

The bridal chorus from Lehigh was used for the processional and "Largo" for the communion, while "The Hearts and Flower March" was played for the recessional.

"Vases of white flowers made the altar attractive."

**Gowned In White**

The bride, given in marriage by her uncle, Frank P. Brust of Coraopolis, Pa., wore a lovely white gown of silk maline over tulle. Her full length double tulle veil, bound in white satin, fell from a Juliet cap. A mother of pearl bracelet, gift of the groom, purchased in Rome, Italy, was her only jewelry. She carried a shower bouquet of white roses and a bride's phlox.

Mrs. Howard Shaw of East Palestine, matron of honor, appeared in a dusty rose tulle gown. She wore a shoulder length veil and Juliet cap to harmonize and carried a bouquet of daffodils, blue iris and white phlox.

Miss Jeanne Gregory of East Palestine, bridesmaid, wore a gown created of gold colored tulle and net. She wore the same style of head-dress as the matron of honor and carried a bouquet of the same flowers.

Raymond Walpert of Alliance was his brother's best man and Peter Kintz of East Palestine was the usher.

The bride's mother, Mrs. McDonald, was escorted in navy blue chiffon over satin with matching accessories and wore a corsage of red roses.

Mrs. Walpert, the groom's mother, wore a black crepe with fuchsia accessories and a corsage of red and yellow roses.

**Wedding Breakfast Served**

A three-course wedding breakfast was served at the home of the bride's uncle and aunt, Mr. and Mrs. Robert Chaplin in East Palestine. The T-shaped table was graced by a four-tiered wedding cake and enhanced with flowers and white tapers in silver holders. Places were arranged for 35 guests.

The bride, a daughter of Mr. and Mrs. William McDonald, is a graduate of the East Palestine High school. Until recently she was employed in the traffic department of the Ohio Bell Telephone Co. in Youngstown. She was formerly employed in the same work here.

Mr. Walpert, son of Mr. and Mrs. William Walpert, R. D. 5, Salem, attended Leetonia High school. He was recently discharged from the armed forces after 35 months' service, 31 of which were spent in Europe. He is employed by the E. W. Bliss Co.

The couple left yesterday on a honeymoon trip. For traveling the bride wore an aqua dress with brown accessories.

They will make their home in Salem.

The guests were from East Palestine, Salem, Alliance, Leetonia, and Coraopolis and Beaver, Pa., and Shelbyville, Wis.

Mr. McDonald, father of the bride, who has been ill in the Aspligwall, Pa., hospital, returned home a few days ago.

**Missionaries' Letter Read At Meeting**

A letter from Rev. and Mrs. Milton Coleman, Friends missionaries in Central India, was read at a meeting of the Elsie Matti Missionary circle of the First Friends church last night at the home of Mrs. Clarence Townsend, Ridgewood ave.

Mrs. Townsend and Mrs. Kenneth Howells served lunch at the social period.

A meeting on March 21 will be at the home of Miss Ellen Mitchell, N. Ellsworth ave.

**Given Birthday Gift At Club Meeting**

Mrs. Mary Phillips was presented a birthday gift at a meeting of the M. & M. C. club yesterday afternoon at the home of Mrs. Paul Martig, Benton rd.

The afternoon was spent in visiting. The hostess served a dinner at 5.

Mrs. Glen Entriiken of Montclair, N. J., formerly of Salem, who underwent an operation in Salem City hospital, went to the home of her parents, Mr. and Mrs. James Goodwin, Maple st. yesterday afternoon. She is reported to be getting along well.

## Circle Members Meet At O'Connell Home

Mrs. Charles J. O'Connell entertained members of the Esther Butler circle of the First Friends church yesterday at her home on Cleveland st.

Mrs. Burt Whitton led the devotions and the program was in charge of Mrs. Dessie Scullion.

The following readings were given: "Washington's Name In The Hall of Fame," Mrs. John Shaffer; "The Life of Esther Butler," Mrs. Sylvester Jackson; "Four Men of God," Mrs. Scullion. Mrs. Elsie Mosher read a letter from Rev. and Mrs. Milton Coleman, missionaries who recently returned to Central India.

Lunch was served by the hostess, assisted by Mrs. Everett Allen.

The next meeting will be held March 21.

## Two Library Workers Honored At Party

For the pleasure of Miss Alice Gladden and Miss Mary Leasure, the staff of the Salem public library held a party Wednesday night in the library assembly room. Each honoree was presented a shower of gifts.

The refreshment table, beautifully appointed in a decorative motif of yellow, green and white, was centered with a bouquet of pansies and maiden hair fern and graced with white tapers in silver holders.

Miss Gladden, head librarian, is retiring March 2, and will return to her former home in Carthage, Missouri.

Miss Leasure is the bride-elect of Curtis Martin of Canton.

## Heard Spy Story

IVOR GOSENKO, Russian embassy official whose tip led to disclosure of a Russian spy ring in Canada, first revealed his story last Sept. 2, and his listener was Elizabeth Fraser, above, a reporter, at that time, for the Ottawa Journal. Now an English instructor at University of Western Ontario, London, Ont., Miss Fraser was approached by Gosenko, who told her "It's death if you can't help me." He had been brushed off at the Justice department, according to his story and was turning to the power of the press to help. He was referred to the Royal Canadian Mounted police, and is now in their protective custody. (International Soundphoto)

## Nationalization of Industry May Prove Boon to Poland

INSIDE NATIONALIZATION  
By LARRY ALLEN

WARSAW, Nationalization of industry and development of the Silesian coal fields, newly incorporated within Poland's western boundaries, will help her replace Germany as a big industrial power in Europe, in the opinion of Hilary Minc, minister for industry.

With all basic industries employing 50 or more persons per shift now under direct government control, Minc said the country expected to attain 100 percent of prewar production this year.

Minc, 42-year-old statistical and economic expert, said that 2,000 enterprises, employing 600,000 men, had been nationalized, adding that

a staff of experts is now working out compensation for Polish citizens and foreign interests whose properties were taken over.

### Foreign Holdings High

He estimated that foreign investments before the war amounted to about \$280,000,000. Of this amount, American interests, such as the Anaconda Copper holdings in the Giesche works near Katowice, are estimated roughly at \$50,000,000 and British investments at \$35,000,000.

Important French and Belgian interests also are involved.

Minc said foreign owners would have an opportunity to be heard before compensation is fixed. Banks, communications and

transport systems, coal mines, public utilities and a host of other enterprises are included in the nationalization decree. A supplementary decree said it was the government's intention, nevertheless, to encourage "private initiative."

There was no specific mention of how that would be done. Minc asserted some small enterprises which have been under state control along with big basic industries pending nationalization, would be turned back to private owners. These would include industries that employ less than 50 persons each working shift.

### Aid New Construction

He explained one big field of activity excluded from nationalization was that of the "private builder." He said anyone engaged in building or reconstruction work could employ more than 50 men per shift without being subjected to nationalization.

Minc said nationalization would not outlaw strikes. However, he

said, "I believe that relations between trade unions and government management will be such that no one will want to strike."

He estimated that one-third of the nationalized industries were formerly German, for which no compensation would be paid unless a former German owner could show that he had been subjected to Nazi persecution.

Some of the industries affected by nationalization which Minc said would free Poland from the grasp of "foreign trusts, cartels and concerns" and assure the nation's "economic sovereignty" are:

Mines, oil wells, oil refineries, electric power plants, gas works, water supply installations, found-

ries, coke plants, sugar factories, breweries, distilleries, yeast factories, oil-producing plants, refrigeration works, textile mills and printing shops.

### Get Housing Units

CLEVELAND, Feb. 22.—Fifty temporary family dwelling units have been allocated to the Lorain, O., metropolitan housing authority, and 10 to Clyde, O., the regional office of the Federal Public Housing authority said today. The units are for the use of married veterans and their families.

# Ashtabula's 'Alger' Will Return Home After Long Absence

(By Associated Press)  
ASHTABULA, Feb. 22—This lake front city pays tribute next week to its own "Horatio Alger" hero—the home town boy who made good.

He is Robert W. Wason, who left Ashtabula dead broke 32 years ago but who returns as one of the country's top industrialists.

Today Wason, at 57, is president of the National Association of Manufacturers, and also heads the New York engineering firm of Manning, Maxwell & Moore.

Forty years ago he was so broke he stuffed cardboard in his shoes to replace worn-out soles. Next Monday he will be the honored guest at the Chamber of Commerce's Golden Jubilee celebration.

He started working here at 11, as a grocery boy. Then he did double duty as janitor at the high school and church. Then he shifted to a blacksmith's helper. Next he became a longshoreman.

At 25 he left here for Cleveland, penniless. After days of unemployment he started selling ads.

His ad-selling job paid dividends and his salary jumped to \$75 a week. By 1928 his earnings had soared to \$20,000 annually, in the advertising business.

He later shifted to engineering. He later shifted to engineering. He later shifted to engineering.

Wason plans to arrive in Ashtabula a day early for the jubilee celebration. He said he wanted to visit the blacksmith shop, the school and church, and the docks where he got his start.

## Charge Pacific Destruction of Army-Navy Goods

Pictures showing widespread destruction of Army-Navy supplies in the Pacific brought a prompt demand in Washington for a Congressional investigation. The photos, such as the one above, accompanied by letters from overseas servicemen, were exhibited to the House executive expenditures committee by Rep. Henry J. Latham of New York. The above photo is identified by the G.I.'s as showing an ambulance, and 10-wheel trucks fully loaded with new material, including manual phone systems, electric dry cells, motors, microphones and full radar equipment.

# 5,000 U. S. Trucks Unused In India

WASHINGTON, Feb. 22.—Brig. Gen. T. M. Osborne reported today there are "4,000 to 5,000" new trucks standing idle in India, but disclaimed army responsibility for them.

Osborne was asked by members of the house expenditures committee about reports that "miles and miles" of surplus trucks are being junked.

The officer, attached to headquarters of the army service forces, said the army had the trucks sent to India for relay to China over the Lado road.

The trucks were to be transferred to China under lend-lease procedure, he said, but this was prevented when such transactions were halted at the end of the war.

"The trucks are now the property of the foreign economic administration and will have to be disposed of by it," Osborne declared.

Whittington and other committee members are considering legislation to overhaul the surplus property disposal act. They have asserted frequently at hearings that

both the army and navy are hoarding and destroying excess goods.

Undersecretary of War Kenneth C. Royall told the committee the army is prepared to "meet head-on" charges of wanton destruction of property.

# THE OLD JUDGE SAYS...

**HENRY:** "I've heard that same thing several times lately... that alcoholics are really sick people. It was news to me. Do you agree with that statement, Judge?"

**OLD JUDGE:** "Yes, it's true, Henry. It's no notion of mine... it's a statement made by scientists who have studied the subject."

**HENRY:** "What did they find out, Judge?"

**OLD JUDGE:** "Well, as a result of their medical research, they found out that approximately 95% of the people who drink, drink sensibly. 5% do so unwisely, at times.

Included in that 5% is the small percentage known as alcoholics."

**HENRY:** "But why are they called sick people?"

**OLD JUDGE:** "Because it has been discovered that, in many cases, excessive drinking is a symptom of some physical or emotional maladjustment... not the cause of it."

**HENRY:** "Now I understand it, Judge. I am glad to hear of the modern approach to this problem and that so much is really being done to help these folks."

### BEIGHTLER HEADS 5TH SERVICE GROUP

COLUMBUS, Feb. 22.—Maj. Gen. Robert S. Beightler became head of the Fifth Service command today, the first National Guard officer to hold such a position in the nation.  
No special ceremonies were arranged as the man who led Ohio's 37th Division from Guadalcanal to the Philippines took over his new post.

He was greeted by Brig. Gen. John E. McMahon who, since Sunday, had been acting commanding general of the command. McMahon for six months was chief of staff to Maj. Gen. James L. Collins, commanding general of the command since Dec. 2, 1943.

McMahon will remain as chief-of-staff to Beightler. Collins is expected to retire soon.  
As commanding general of the Fifth Service command, Beightler will be in charge of the housing and supplying of all troops other than the air forces at more than 100 posts, camps and stations in Ohio, West Virginia, Indiana and Kentucky.

Beightler, former state highway director, was a National Guard officer when the Ohio National Guard unit was called into federal service in October, 1940.

### Kniseley Garage Celebration Set

Initial showing of the 1946 Hudson automobile at the W. H. Kniseley & Son, Inc. garage, S. Howard ave. and W. Pershing st., from noon until 10 p. m. Saturday, will mark the firm's 30th year as Hudson dealer in Salem.

Kniseley's, oldest automobile dealers in Salem, began Hudson sales in February, 1916, when the company was located on Arch st., where it had begun the auto business in 1902. In 1925, the same year the firm was incorporated, the garage was re-located at Howard and Pershing st.

A special program has been arranged for 9 p. m. Saturday.  
Herman Kniseley, son of the founder and now head of the firm, invites the public to visit the showrooms tomorrow and view the 1946 Hudson. Three models will be on display.

# 30 Candles on our Birthday Cake

We Like parties!  
 ... we want you to come to ours!

## A BETTER HUDSON FOR YOUR MONEY TODAY

Believe us, we're proud to be celebrating our 30th anniversary with Hudson! For 37 years Hudson has been building fine automobiles, and we have served Hudson owners in the Salem area for 30 of those years . . . since 1916.

Our first Hudson was delivered on February 22—30 years ago. Since that day, we have seen the development of many important Hudson "Firsts". There are more than 50 of them—including such important contributions to your motoring comfort and safety as the first body all of steel including roof—the first starter on the instrument panel—first Airfoam seat cushions—first luggage compartment and enclosed tire in the rear—first shifting of gears at the steering wheel.

In the past 30 years we have seen Hudson cars win and hold more than 120 official AAA performance and endurance records—more records than are held by any other car now being made.

Naturally, we're proud of our birthday and our association with Hudson. That's why we want you to come to our Open House and help us celebrate. When you come, we'll enjoy showing you the new 1946 Hudsons—"The Fine Car of Low Price." Through the years, we've come to expect great things from Hudson. This year, in style, luxury and solid reliability, the new Hudsons offer more than even we thought possible.

Be sure to come to our Open House and see and inspect the 1946 Hudsons.

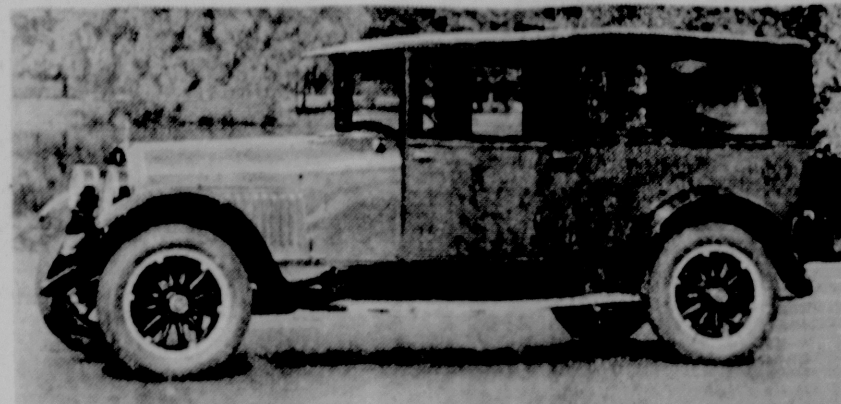

1946

Offered in a Super Series and a distinguished Commodore Series . . . with a choice, in all models, of the famous Super-Six or Super-Eight engine.

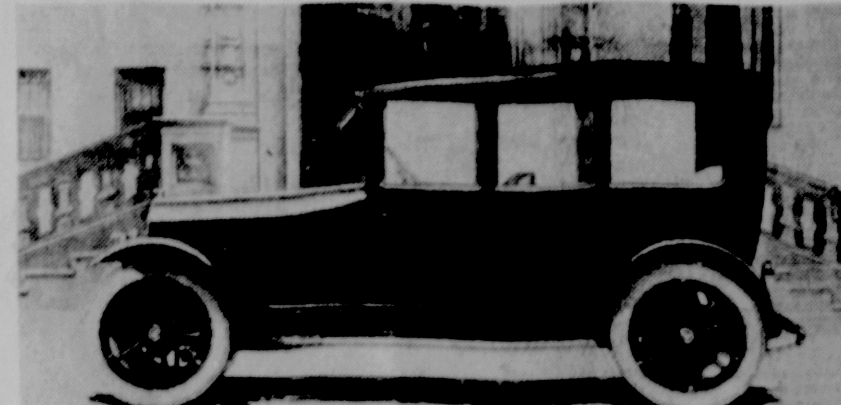

1936

People talked about this Hudson. It was far ahead of its time in style, luxury and all-round performance.

1926

Hudson's advanced engineering made this model a great car for its time, and we've come a long way in the 20 years since then.

1916

Thirty years ago we delivered our first Hudson. This car and the ones before it had already given Hudson a great name.

## MACKENZIE'S Column

By DEWITT MACKENZIE  
AP World Traveler  
HERFORD, Germany, Feb. 22—When you get a close view of rehabilitation and the democratization of Germany under Allied supervision, you wonder whether or not the whole task doesn't present even greater problems than the smashing of the mighty Hitlerian military machine.

Here in the British zone, we find the problem being attacked along two main lines. One has as its objective the raising of the standard of living, the level laid down by Allied agreement—a long term job. The other is the re-education of the German people, and this is the bigger of the two for it is to instill democracy.

It is noticeable that there is no coddling of the Germans. The toughest spot in the vital educational program is the group of people between the ages of 14 and about 35, for they are the Hitlerized element. The older folk are less of a problem, and of course it is upon the children that lasting peace largely must be built.

So the British are setting up Democratic institutions. These include universities and schools. The re-education of trade unions on craft basis is being encouraged.

New text books are being provided throughout the zone. The old arithmetic books instead of presenting problems in the form of how many apples are two and three, substituted soldiers, or maybe tanks, for apples.

The British are doing daily broadcasts with a peace theme to the schools. The radio also is telling the students about their countries. There are over two million children in the schools of the British zone but they are short of teachers.

Another important phase of the democratization is the fostering of youth movements, and there are now some 1600 youth clubs with a membership of about 75,000.

There are social clubs, run by a committee of their members.

One of the most interesting projects is the establishment of town councils everywhere. These are rather like the American town meeting. The members are nominated at present because the people are untrained, owing to the dictatorship but the members will be elected by the end of June. Education of the general public is of course being carried on extensively through the radio, the press, the cinema, and the theaters and book publishing.

The authorities also encouraging individual Germans to have personal contact with the outside world from which they had been cut off by the dictatorship since 1933.

The newspapers, by the way, are

Pictured above is one of the most popular souvenirs now being sold throughout Japan—a silk handkerchief on which is reproduced the front page of the Selma, Ala., Times-Journal of Sept. 2, 1945, carrying the story of Japan's surrender. Illustrating the story is a layout showing Gen. MacArthur and Old Glory waving over a map of Japan, prepared by NEA Service. Superimposed on the Selma paper is Mainichi, a Japanese newspaper, carrying photos of MacArthur.

## Mothers Protest Closing Of 19 Child Care Centers

CLEVELAND, Feb. 22—A group of mothers—some 125 of them—marched on city hall today to protest the closing on Saturday of 19 day care centers where women leave their children while they work.

City officials said it would be necessary to close the day care centers with the expiration of the federal Danham act, which provided government funds for the greater part of the centers' support. Mrs. Della Tracht, a spokesman, said the city had done nothing to prevent the closing of the centers, which now have about 600 children enrolled daily.

# Tourney Talk

By DON E. BEATTIE, News Sports Editor

CLASS A SECTIONAL basketball seedings at the meeting at Youngstown South High school Monday again brought to light the rather unpleasant fact that it is mandatory—according to Tournament Director Dave Williams—that a Youngstown school be seeded each year.

This is definitely unfortunate and highly unfair. Failure to seed undefeated Canton Township and the insistence by Williams that either Youngstown South or Rayen be seeded Monday heightens the belief that the prime consideration in conduct of the tournament is making money.

THE WHOLE STORY on the drawings Monday is this: Williams announced to the coaches assembled that both Warren and Canton Township were definitely to receive two of the four seeded positions. No one disputed his choice.

Williams announced further that of the two remaining places, one would go to either Youngstown South or Rayen and the second to either Canton McKinley or Canton Township. The two Youngstown schools could not be compared to the Canton schools for both places, but had to be considered in pairs for one of the two positions.

COACH RED ASH of Township (14-0) contended that he should be seeded. So did McKinley's Bud Ryarik. Williams said "no" and put the choice of the Canton schools to a vote of the Canton area coaches. McKinley won.

Coaches Al Beach of South and Ralph Robinette of Rayen indicated they did not desire the seeded spot. However, Williams took them aside, flipped a coin, and South won the toss. South refused the seeded position and it went automatically to Rayen.

THE METHOD of selecting seeded entries should not be one based on the location of the teams under consideration. Seeding is done to assure the most powerful teams in a tournament of not meeting any of the other most powerful teams until the finals. It is an accepted practice to seed teams to assure a better tourney, as seeding eliminates the possibility of two of the best outfits battling it out in the first round.

The discrimination against Township has resulted in just that. The Township team, with the best record of the 27 entries, clashes with McKinley, obviously among the best, in the first round's 9 p. m. battle Monday.

It will be a corker from a contest standpoint, but from a tournament angle, it is wrong.

A NEED FOR standardization of practice in the scholastic tournaments is obvious from the A drawings alone. But the unbelievable unfairness and confusion noted at the Class B drawings at McDonald Wednesday brings out the lack of continuity in the entire process.

Tournament Manager A. A. Burkey, who runs the Youngstown B sectional, had the entire drawing practically re-arranged before the coaches even arrived. There was little sense in a coach even attending the drawing as conducted on Burkey's system.

BY EXTENSIVE argument and objection a few coaches finally managed to change Burkey's system. But it took a lot of talk to gain a slight change in the procedure.

Among those who finally swung the justifiable change were Leontis's Charlie Mather, Chambliss's Ray Sweeney and Youngstown North's Heckman. Principal Ed Miller of Columbiana also agreed, although his team was obviously gaining from the Burkey procedure because it had been seeded.

CONTINUITY AND FAIRNESS in seedings and procedures are definitely lacking in tournament practice under present regulations set by the Ohio High School Athletic association. Commissioner H. W. Emawiler would do well to consider standardization, without regard to locales represented in seedings.

## Athlete Is Honor Pupil

COLUMBUS — Quarterback Paul R. Friday was one member of the Ohio State football squad who didn't have to worry about scholastic requirements today. He made straight A's during the last quarter.

## Benton Tiger Casualty

LAKELAND, Fla., Feb. 22. — Al Benton, big Detroit pitcher who spent six weeks on the shelf last season with a fractured ankle, is the first casualty of the Tigers this year. He received a spike out on his right foot in a collision with Stubby Overmire. Trainer Jack Homel said the cut was not serious.

## Scans Boston Hurlers

FORT LAUDERDALE, Fla., Feb. 22.—Manager Billy Southworth of Boston Braves will have a look at six more of his pitchers under fire today in second intrasquad game. Mort Cooper will work three innings.

Hoop Skirts For 1946

BY DOROTHY ROE  
Associated Press Fashion Editor

AMERICAN women are going feminine with a bang after the severe silhouette of the war years. Real hoop skirts are in the fashion lineup for spring, 1946, along with padded hips, sloping shoulders, accentuated bustlings and corsets worn in bathing suits.

After every war there is a change in the fashionable silhouette. The changes in store as the aftermath of World War II are predicted by leading American designers as follows:

Omar Kiam.... Women are relaxing mentally after the tense war years.... It will be a dressy year.... Clothes will be designed to sit and look pretty in.

Adele Simpson.... An era of vanity is beginning.... The fashion accent will be on bosoms, in drapery and revealing cut.

Nettie Rosenstein.... Accentuate the bosom, minimize the waistline.

Samuel Kass.... Very full skirts and exaggerated fullness throughout.

Valentina.... We are entering the most honest period of fashion since Greek lines. A woman's clothes will tell the truth about her figure, with the result that if it is too bad she will do something about it.

Sophie.... Soft, fragile draperies.... laces and chiffons....

Fira Beneson.... Women who love sweets will get a break this year.... The hips and torso can look round, but the waist must be thinner than ever.

Lily Dache.... Heads will look romantic and in the clouds in pretty colored, high-riding hats. All will be off-the-face and jutting forward.

Emily Wilkens.... The debutante of 1946 will look like her great-grandmother with a bustle and a handspan waistline.

Jo Copeland.... With men back to stay, women have begun to turn on the charm....

Brownie.... There will be the look of a lot of fabric.... Skirts will stay short.

Adrian.... Don't look like a belted barrel in your suit!

Although white is very visible, it is too dazzling in sunshine. For that reason, authorities in the south of France have considered having all the main roads colored red, with secondary roads green or yellow.

Models Depict Battle Of Midway

Designed to aid future students of sea action by filling in phases missed by on-the-spot photography because of weather conditions, smoke, or darkness, detailed models of famous engagements have been designed by Norman Bel Geddes and Company according to official descriptions and photographed. Photo above shows Battle of Midway at 1336 (1:36 p. m.), June 6, 1942, as first torpedo passes under U.S.S. Hammann, a destroyer alongside, to strike aircraft carrier U.S.S. Yorktown while second breaks back of destroyer.

OPA Suspends Market

COLUMBUS, Feb. 22 — Kuhn's market of Zanesville today was given a 120-day suspension from all sugar dealings for an overdraft of

3,402 pounds in its sugar ration account. The suspension was ordered by Dennis Duplavy, hearing commissioner of the Office of Price Administration.

Clothes moths cost the United States about \$20,000,000 damage annually.

CORONET MAGAZINE says:

"Hard water costs the average family one hundred dollars a year on three items alone—increased use of soap, larger plumbing bills, shorter life of linens."

HOUSEHOLD MAGAZINE says:

"Approximately four-fifths of the soap we use in hard water goes towards softening water to the point where the remaining fifth can make suds."

GOOD HOUSEKEEPING MAGAZINE says:

"The average householder pays an enormous bill when hard water is used."
